Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, a band having an elongate length with opposite first and second end edges; a plurality of angled portions in the band between the band first and second end edges; a plurality of sections of the band length between the band first and second end edges, the band sections being separated from each other by the band angled portions, and at least some of the band sections overlapping each other (claims 13, 14, 18, 19, 21, and 22) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Regarding claim 12 (incorporated into amended claims 13, 14, 19, 19, 21, and 22), applicant argued that Figs. 10-12 show a band having a plurality of angled portions between the first and second end edges. However, while Fig. 10 shows a plurality of angled portions between the first and second end edges, this figure does not also show band sections separated the band angled portions and overlapping each other. Figs. 11 and 12 do not even show a plurality of angled portions between the first and second end edges because these figures do not show anything identifiable as a first end edge and a second end edge.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure

is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

Claims 2, 3, 7, 8, 10, 11, 13, 14, 18, 19, 21, 22, 24, 25, 28, 29, 31, 32, and 36 are allowable.

Conclusion

This application is in condition for allowance except for the following formal matters: the drawing objection listed above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
